

Athenry Environmental Network Spring weekend (9th -10th February)

The **Athenry Environmental Network** was set up in 2007 by a group of local volunteers to promote environmental awareness and well being in Athenry and local communities through out The West of Ireland. As part of the group's work we hold 2 weekend per year of workshops and information events on environmental matters. Part of the weekend is also spent on a local project and this spring we will be planting 100 trees in the Athenry community in school grounds and other public areas..

The workshops will be held on **February 9th and 10th 2008** from **10am to 5pm** in **Athenry Town Centre** at **The Community Hall** in **Clarke Street** (opposite the fire station) and there will be talks on the use of Woodpellet stoves, using herbs in everyday living, environmentally friendly household cleaners among other topics.

The event is open to anyone interested in environmental matters from anywhere- not just Athenry.
