Mayfield Community Arts Centre is a unique dedicated arts space based in the heart of Mayfield at Newbury House Family Centre. Mayfield Community Arts Centre develops, manages and delivers community arts programmes in consultation with the local community and according to funding received.

Currently our two main programmes are our Global Education Programme and our Arts and Integration programme. Longside these programmes we offer training, run out of schools activities, support youth in initiating their own projects through the European Youth in Action programme and coordinate a European Voluntary Service programme.

We believe:

- that everyone has the potential to develop personally.
- that everyone can contribute to community and global development.
- that self-worth, a sense of purpose, and community are essential for all people.
- that everyone has the right to develop their creativity. Art is a language accessible to everyone.
- that everyone should be treated with respect regardless of gender, class, age, religion, ethnic origin, level of education, ability or sexual orientation.
