The Artist in the Community Scheme covers all art disciplines

Artist in the Community Scheme - 4pm

Artist in the Community Scheme: Twice yearly, the Arts Council offers grants to enable artists and communities of place or interest to work together on projects. The scheme covers all art forms. The Artist in the Community Scheme is managed by Create, the national development agency for collaborative arts, providing services for arts development and collaborative arts practice in Ireland.

The aim of the scheme is to encourage intense collaboration between communities of place and/or interest and artists, culminating in an artwork or a project in which the members of the community group and the artists work together in order to realise an artistic project or an event. It is essential that meaningful consultation take place between the artist and the community group, so that both parties are involved in deciding on the nature of the project. Group ownership of the art should be maintained at every stage.

There are two phases to the scheme:

Phase One, Research & Development, is open to artists who wish to research and develop a project in a community context. Maximum time frame is 3 months.

The maximum amount awarded in Phase One is €1,000.

Phase Two, Project Realisation, is open to communities of interest or place (or their representative organisations), planning a project of between 6 weeks and 5 months with a maximum award of €5000, and those who are planning a project of between 6 months and 9 months with a maximum award of €10,000.

Create Membership Information Forum - 7pm

Create is the national development agency for collaborative arts.

This forum will address

Who we are

What we do

What do you need?

Our mission is to provide advice and support services to artists and arts organisations working collaboratively with communities of place and/or interest

Artists and arts organisations working collaboratively with communities of place and /or interest is widely seen as one of the most vibrant and challenging areas of arts practice, requiring skills of negotiation and project management. The exploratory processes and practices of collaborative arts demand different approaches to traditional definitions of art, artists and arts development.

Create responds to these demands by offering a range of services for artists and arts organisations which include Professional Development, Learning Development, Project Management and Consultancy and Projects and Initiatives that support and develop collaborative arts practice and critical discourse.
